

implant digital library
installation instructions for
Exocad software

Instructions are available in video format at
www.youtube.com

Note:

Make a backup copy of existing implant libraries.

Step 1.

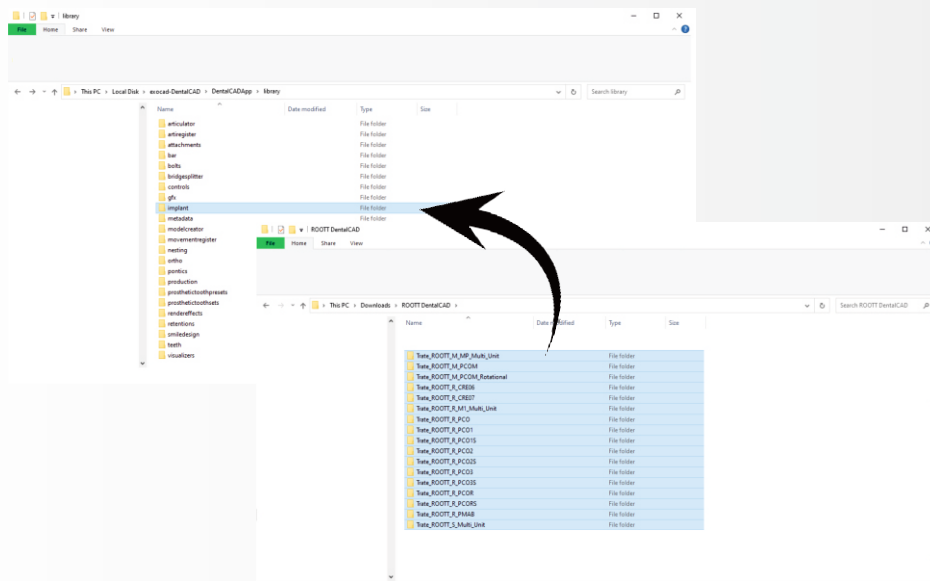

Extract/unzip downloaded archive.

Step 2.

Locate exocad-DentalCAD installation folder.

Step 3.

Go to: DentalCADApp/library/implant.
Move downloaded content from “DentalCAD” folder.

Step 4.

Go to: DentalCADApp/library/modelcreator/implants.
Move downloaded content from “modelcreator” folder.
