## ROOTT library integration in BlueSkyPlan software

Instructions that help you to import ROOTT library in BlueSkyPlan software

**Step 1.** Open BlueSkyPlan software, click **Tools - Manage catalogs** and download the latest catalog version.

Step 2. Choose the downloaded file and click the check mark in the Section column.

O Manage implant catalog					$\times$
Choose some catalog from the table below to switch catalog to that version. The change will take effect after Blue Sky Plan restart.					
Version	Date		Selection		
7.8	11-March-2021	752.89 MB		<u>+</u>	х
7.6	12-February-2021	730.03 MB			×
7.5	22-January-2021	697.40 MB			×
7.3	18-December-2020	1.06 GB			×
7.0	29-October-2020	876.82 MB			×

Step 3. Restart the system.

Optional. Use the BlueSkyPlan project that has a DICOM and loaded lower Jaw Model for testing: https://bit.ly/3oGSNFR.

Step 4. Uncover hidden parts by clicking Add New Implant.

Step 5. Hold Ctrl Shift and click the Cancel button with the mouse. A new window shall appear.

Step 6. Type BSPTrate2021 inside the Password window and click Unlock.

## ROOTT library now is visible in BlueSkyPlan software
