

## DRILL / INSTRUMENT COMPLAINT & FEEDBACK FORM

# Filled by Reporter:

Reporter / Complainant Information

| Field           | Details |
|-----------------|---------|
| Reporter name   |         |
| Clinic name     |         |
| Address         |         |
| Contact details |         |
| Date of report  |         |

## **Device identification**

| Field                     | Details                 |
|---------------------------|-------------------------|
| Device REF                |                         |
| Batch No.                 |                         |
| Number of uses            |                         |
| Sterization status at use | Sterile     Reprocessed |

Event / complaint description

| Field                            | Details  |
|----------------------------------|--|
| Date of event                    |  |
| Procedure type                   | <ul><li>Single unit</li><li>Multiple units</li></ul>   |
| Anatomical location              | <ul><li>Mandible</li><li>Maxilla</li></ul>   |
| Event Category                   | <ul> <li>Breakage</li> <li>Deformation</li> <li>Loss of cutting efficiency</li> <li>Overheating</li> <li>Corrosion</li> <li>Connection instability</li> <li>Irrigation problem</li> <li>Packaging issue</li> <li>Other (specify):</li> </ul> |
| Severity of Clinical Impact      | <ul> <li>No patient impact</li> <li>Minor impact</li> <li>Moderate impact</li> <li>Serious impact</li> <li>Device malfunction without harm</li> </ul>  |
| Was implant placement completed? | <ul><li>Yes</li><li>No</li></ul>   |

# Initial reported evaluation

| Question   | Yes / No / N/a | Comments |
|--|----------------|----------|
| Was the drill used according to IFU and surgical protocol? |                |          |

| Any visible defects before use?           |  |
|---|--|
| Was irrigation used?                      |  |
| Was torque within recommended range?      |  |
| Any patient-related factors contributing? |  |
